

Pleatco DE GRIDS™

Lighter. Stronger. Better.

PleatcoPure®
THE CLEAN WATER COMPANY
Leaders in science and innovation.

CLEAN DESIGN

By using the highest quality raw materials and advanced manufacturing methods, Pleatco's D.E. Grids provide efficient, peak performance filtration for pools while delivering cost and energy savings and extended product life.

✓ Pleatco now offers a full range of grids including replacements for the entire **Universal and Purex** lines.

UNIQUE PRODUCT TAGS

Pleatco D.E. Grids all feature easy to read product tags with the Pleatco part number prominently displayed for quick identification when it comes time to replace.

Pleatco D.E.Grids are engineered to outperform and outlast any other.

Pleatco lightweight grid design flexes where needed but remains ridged when demanded. Our unique design centers on a 'flex backbone' that is specifically engineered to deliver strength without excessive bulky plastic for rigidity. This flexing prevents cracking and damage to the frame. A special reinforced center tube creates a duct to funnel water from the outer most edges of the entire grid assembly.

Using advanced manufacturing methods and scientific engineering, Pleatco has eliminated traditional weak spots in grid designs. Built with high impact ABS material featuring a high 'strength-to-weight' ratio, our grid frames are noticeably lighter in weight while providing superior strength, performance and dependability.

Under pressure and exposure to pool chemicals, heavier "old school" competitive grids can become brittle, fracturing at the corners and nipple assembly over time due to the constant bending that occurs in the tank. Pleatco's flexibility allows for a greater flow and provides longer product life.

All of our grids are made with Pleatco Unique Filtration Fabric® - a high performance woven polypropylene that contains only virgin resins to assure the highest strength and to maximize filtration. Seams are stitched by our product team experts with a chemical resistant heavy 4 ply thread. The unique Pleatco design also minimizes the amount of tension placed on the fabric, reducing splitting and tearing of the fabric.

GRID CODES

- PFG = Full Grid (Universal)
- PHG = Half Grid (Universal)
- PFS = Full Set (Universal) 7 Full Grids and 1 Half Grid
- PXG = Pleatco Purex Grid

Guide:
 First Two Letters = Pleatco SET TYPE (Half / Full)
 First Two Digits = Height in Inches
 Last Two Digits = Square Feet of Filtration Fabric
 Example: PFG1224 = Pleatco Full Grid, 12" Height, 24 Square Feet
