

A photograph of a woman with long brown hair, wearing a teal shirt, looking at a young girl in a white lace dress. The girl is standing in front of a white front-loading washing machine, holding up a pile of laundry (a grey t-shirt, a blue t-shirt, and a white cloth) above her head. She has a joyful expression with her mouth open. The woman is holding a white laundry basket in the foreground. The background is a light blue wall.

EXPERIENCE THE JOYS OF SOFT WATER. **FOR LIFE.**

INTRODUCING THE PENTAIR HOME CONNECTED WATER SOFTENER

Connected devices improve our health, enhance our lives and keep our families safe.
Why not be connected to something as essential to your family's well-being as your water?

Now you can, thanks to the WiFi-enabled Pentair® Home Connected Water Softener.

TAKE CHARGE OF THE WATER IN YOUR HOME

Access Information With Ease

Use the Pentair® Home app to check your water softener system's status anywhere, anytime. Monitor your salt level and receive reminders when it's time to refill, ensuring a continuous supply of soft water. The Pentair Home app even lets you track water usage so you can make smarter water choices for your family.

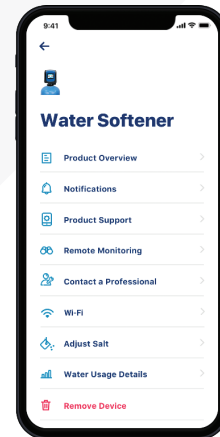

Manage Your Water Without Worry

Choose to receive text or email alerts when it's time to schedule routine maintenance or if service has been interrupted. You can also opt in to have those same alerts sent directly to your local water treatment professional to keep them in the loop and keep your clothes soft, glassware spot free and skin healthy.

Get Help When You Need It

Use the app's locator tool to find and connect with your local water treatment professional. Save time and money by allowing your service technician to review softener system information remotely and troubleshoot problems over the phone. Enjoy the peace of mind in knowing that your water is always properly softened and proactively protecting your home's appliances and fixtures.
