

# PENTAIR® DYNAMIC TORQUE CONTROLLER™ MODULE

## GULF BREEZE, FLORIDA

### PROBLEMS

- ◆ Pumps were clogging on average one or two times per month.
- ◆ Risk to staff from needles/sharp objects from the neighboring medical facility.

### SOLUTION

- ◆ Dynamic Torque Control technology installed Spring 2017.
- ◆ The technology smartly monitors pump performance in real time and detects and passes debris, keeping pumps clog free.

"We were pulling the pumps once or twice a month, removing heavy rags and syringes from the neighboring medical facility. Since installing Dynamic Torque Control technology<sup>1</sup> almost a year ago we haven't had to pull the pumps ever again."

*Dereck Williams  
Gulf Breeze*

### PROJECT RESULTS\*

- ◆ Reduction in clogging, have not had to pull pump in almost 12 months.
- ◆ Reduction in labor associated with servicing.

**CLOG REDUCTION:** Once or twice every month down to zero. 100% reduction in clogging.
